

CHANGES TO THE REVENUE OUTTURN (RO) SUITE OF FORMS 2011-12

Following consultation within the Central and Local Government Information Partnership Finance (CLIP-F) Group, there are some changes to lines in the RO suite of forms from 2010-11, as detailed below:

General

- The deadline for return of the RO suite of forms is **13 July 2012**.
- There are two major issues to this year's RO forms:
- The information on the RO suite of forms should continue to be reported on a Non-International Accounting Standard 19 (IAS19) basis (aside from the reporting of accumulated absences). The information collected on an IAS19 basis as on **RS 2010-11 lines 961 to 989, column 2** is **NOT** required, and therefore, these lines have been deleted. Similarly, information on "Net current expenditure on non-IAS19 and PFI On-Balance Sheet" for these lines is also not required, instead only the "Total service expenditure on non-IAS19 and PFI "On Balance Sheet" basis" will be collected on a new RS line 979.
- **Termination of BID data collection** - The BID form was completed by billing authorities only in respect of transactions relating to any BID Revenue Account(s) that it had in operation for the relevant financial year. Other authorities were instructed to leave the form blank. The collection of the BID data was primarily for use by internal partners in DCLG. After consultation with the CLIP(F) local government and central government liaison group and internal policy colleagues it has been decided to remove the BID form from the RO suite of forms.
- The forms and guidance have been updated in accordance with the CIPFA's 2011-12 Service Reporting Code of Practice (SeRCOP).
- The changes are as follows:

Revenue Summary (RS)

Lines deleted

- Line 701 "Education: student support - mandatory awards"
- Line 798 "Area Based Grant (ABG)"
- Line 946 "Revenue Grants which have been passed over to Private Sector Bodies"
